Forecast For Wales
Issued by Met Office Exeter
at 0400 on Saturday 19 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunny spells and western showers. Rain overnight and Sunday.

Today:
A dry day for many, but showers developing in western areas, with the odd heavier one possible. Early cloud breaking from the west through the day, leaving fair-weather cloud and sunny spells. Becoming cloudy later and showers spread out further. Maximum temperature 20 deg C (68 deg F).

Tonight:
Showers ease though the evening and late sunny spells briefly develop in southern parts. Patchy drizzle becomes widespread overnight, and heavy outbreaks of rain move in though the early hours. Minimum temperature 11 deg C (52 deg F).

Sunday:
Cloudy on Sunday, with overnight rain weakening but lingering through the morning. Further heavy outbreaks of rain move into southern areas during the afternoon, while northern parts become dry. Maximum temperature 19 deg C (66 deg F).

Outlook for Monday to Wednesday:
Cloudy with showers Monday, but drier with sunny spells in the north. Drier on Tuesday, though showers possible in western areas. Dry with sunny spells on Wednesday.
